

ANNUAL MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) STATUS REPORT

FOR THE PERIOD July 1, 2022 TO JUNE 30, 2023

GENERAL INFORMATION					
Permittee Name:	New Britain Borough		NPDES Permit No.:	PAG130154	
Mailing Address:	45 Keeley Avenue		Effective Date:	March 15, 2018	
City, State, Zip:	New Britain, PA 18901		Expiration Date:	March 15, 2025	
MS4 Contact Person:	John Wolff		Renewal Due Date:		
Title:	Borough Manager		Municipality:	New Britain Borough	
Phone:	215-348-4586		County:	Bucks	
Email:	wolffj@newbritainboro.com				
Co-Permittees (if applicable):					
Appendix(ces) that permittee is subject to (select all that apply):					
<input type="checkbox"/> Appendix A <input checked="" type="checkbox"/> Appendix B <input type="checkbox"/> Appendix C <input type="checkbox"/> Appendix D <input checked="" type="checkbox"/> Appendix E <input checked="" type="checkbox"/> Appendix F					
WATER QUALITY INFORMATION					
Are there any discharges to waters within the Chesapeake Bay Watershed? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No					
Identify all surface waters that receive stormwater discharges from the permittee's MS4 and provide the requested information (see instructions).					
Receiving Water Name	Ch. 93 Class.	Impaired?	Cause(s)	TMDL?	WLA?
Neshaminy Creek	TSF, MF	Yes	Pathogens, nutrients, organic enrichment/low DO	Yes	No
Pine Run	TSF, MF	Yes	Excessive algal growth	No	No
Cooks Run	TSF, MF	Yes	Nutrients	No	No
North Branch Neshaminy Creek	TSF, MF	Yes	Water/Flow variability	No	No

GENERAL MINIMUM CONTROL MEASURE (MCM) INFORMATION

Have you completed all MCM activities required by the permit for this reporting period? ☒ Yes ☐ No

List the current entity responsible for implementing each MCM of your SWMP, along with contact name and phone number.

MCM	Entity Responsible	Contact Name	Phone
#1 Public Education and Outreach on Storm Water Impacts	New Britain Borough	John Wolff	215-348-4586
#2 Public Involvement/Participation	New Britain Borough	John Wolff	215-348-4586
#3 Illicit Discharge Detection and Elimination (IDD&E)	New Britain Borough	John Wolff	215-348-4586
#4 Construction Site Storm Water Runoff Control	New Britain Borough	John Wolff	215-348-4586
#5 Post-Construction Storm Water Management in New Development and Redevelopment	New Britain Borough	John Wolff	215-348-4586
#6 Pollution Prevention / Good Housekeeping	New Britain Borough	John Wolff	215-348-4586

MCM #1 – PUBLIC EDUCATION AND OUTREACH ON STORM WATER IMPACTS

BMP #1: Develop, implement and maintain a written Public Education and Outreach Program.

- For new permittees only, has the written PEOP been developed and implemented within the first year of permit coverage?
☐ Yes ☐ No
- Date of latest annual review of PEOP: September 2022 Were updates made? ☐ Yes ☒ No
- What were the plans and goals for public education and outreach for the reporting period?
Continue to provide public education and outreach to the Borough's residents, business owners, and developers through public meeting discussions and information in newsletters.
- Did the MS4 achieve its goal(s) for the PEOP during the reporting period? ☒ Yes ☐ No
- Identify specific plans and goals for public education and outreach for the upcoming year:
The Borough plans to continue implementing its public education and outreach program and will consider various outreach methods, such as advertisement in newspapers, articles in newsletters, and public discussions.

BMP #2: Develop and maintain lists of target audience groups present within the areas served by your MS4.

- For new permittees only, have the target audience lists been developed and implemented within the first year of permit coverage?
☐ Yes ☐ No
- Date of latest annual review of target audience lists: September 2022 Were updates made? ☐ Yes ☒ No

BMP #3: Annually publish at least one educational item on your Stormwater Management Program.

- For new permittees only, were stormwater educational and informational items produced and published in print and/or on the Internet within the first year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of educational materials: September 2022 Were updates made? ☐ Yes ☒ No

3. Do you have a municipal website? ☒ Yes ☐ No (URL:
<https://www.newbritainboro.com/information/storm-water-awareness/>)

If Yes, what MS4-related material does it contain?

The Borough's Stormwater Awareness webpage contains information on the PADEP's MS4 regulations, copies of the Borough's TMDL /PRP Plan, and useful stormwater links to DEP and EPA webpages.

4. Describe any other method(s) used during the reporting period to provide information on stormwater to the public:
The Borough published newsletters in Spring 2022, Fall/Winter 2022, and Spring/Summer 2023 which each included stormwater information. The Borough's stormwater website was also reviewed for potential updates.
5. Identify specific plans for the publication of stormwater materials for the upcoming year:
The Borough plans to continue publishing stormwater information in newsletters as well as maintaining the Borough stormwater webpage, including reviewing it for potential updates and confirming the provided links are still active.

BMP #4: Distribute stormwater educational materials to the target audiences.

Identify the two additional methods of distributing stormwater educational materials during the previous reporting period (e.g., displays, posters, signs, pamphlets, booklets, brochures, radio, local cable TV, newspaper articles, other advertisements, bill stuffers, posters, presentations, conferences, meetings, fact sheets, giveaways, or storm drain stenciling).

Presentations on the Borough's MS4 permit requirements and draft PRP/TMDL Plan were given at the November 9, 2022 and December 28, 2022 public Council meetings. Video recordings of the public Council meetings are also posted to the Borough's YouTube webpage. The Borough published newsletters in Spring 2022, Fall/Winter 2022, and Spring/Summer 2023 which each included stormwater information.

MCM #1 Comments:

MCM #2 – PUBLIC INVOLVEMENT/PARTICIPATION

BMP #1: Develop, implement and maintain a written Public Involvement and Participation Program (PIPP)

1. For new permittees only, was the PIPP developed and implemented within one year of permit coverage?
☐ Yes ☐ No
2. Date of latest annual review of PIPP: September 2022 Were updates made? ☐ Yes ☒ No

BMP #2: Advertise to the public and solicit public input on ordinances, SOPs, Pollutant Reduction Plans (PRPs) (if applicable) and TMDL Plans (if applicable), including modifications thereto, prior to adoption or submission to DEP:

1. Was an MS4-related ordinance, SOP, PRP or TMDL Plan developed during the reporting period? ☒ Yes ☐ No
2. If Yes, describe how you advertised the draft document(s) and how you provided opportunities for public review, input and feedback:

The Borough's draft PRP/TMDL Plan was discussed at the November 9, 2022 and December 28, 2022 public Council meetings to solicit feedback from Council and the public. These meetings were advertised, the stormwater related items included on the agendas, and public input was requested at each public meeting. Following these meetings and informal review submissions to the DEP, the PRP/TMDL was advertised in the local newspaper, The Intelligencer, on July 30, 2023 to notify the public of the formal public comment period running from July 31, 2023 through September 1, 2023.
3. If an ordinance, SOP or plan was developed or amended during the reporting period, provide the following information:

Ordinance / SOP / Plan Name	Date of Public Notice	Date of Public Hearing	Date Enacted or Submitted to DEP
MS4 Pollutant Reduction Plan for New Britain Borough	July 30, 2023	August 9, 2023	pending incorporation of public participation information

BMP #3: Regularly solicit public involvement and participation from the target audience groups using available distribution and outreach methods.

1. At least one public meeting or other MS4 event must be held during the 5-year permit coverage period to solicit participation and feedback from target audience groups. Was this meeting or event held during the reporting period?

☒ Yes ☐ No

If Yes, Date of Meeting or Event: September 10, 2019, June 8, 2021, June 14, 2022, November 9, 2022, and December 28, 2022

2. Report instances of cooperation and participation in MS4 activities; presentations the permittee made to local watershed and conservation organizations; and similar instances of participation or coordination with organizations in the community.

The November 9, 2023 and December 28, 2022 MS4 presentations at the public Council meetings discussed the Borough's MS4 permit and the PRP/TMDL Plan requirements. The presentations also referenced the Borough's stormwater webpage and newsletter for people seeking additional information and how to become involved with stormwater related activities in the Borough.

3. Report activities in which members of the public assisted or participated in the meetings and in the implementation of the SWMP, including education activities or efforts such as cleanups, monitoring, storm drain stenciling, or others.

Members of the public attended the Borough's public Council meetings where stormwater management and the MS4 program was discussed. Video recordings of the public Council meetings are also posted to the Borough's YouTube webpage. The Borough also has Nature Preserve and Bird Town Committees that hold regular public meetings and are made entirely of Borough resident volunteers. The Borough's Nature Preserve Committee has completed efforts such as removing invasive plant species, planting hundreds of native plants, and addressing erosion issues. The Borough's Bird Town Committee works to encourage people to reduce or eliminate the use of pesticides and chemicals.

MCM #2 Comments:

MCM #3 – ILLICIT DISCHARGE DETECTION AND ELIMINATION (IDD&E)

BMP #1: Develop and implement a written program for the detection, elimination, and prevention of illicit discharges into the regulated small MS4.

1. For new permittees only, was the written IDD&E program developed within one year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of IDD&E program: September 2022 Were updates made? ☐ Yes ☒ No

BMP #2: Develop and maintain map(s) that show permittee and urbanized area boundaries, the location of all outfalls and, if applicable, observation points, and the locations and names of all surface waters that receive discharges from those outfalls. Outfalls and observation points shall be numbered on the map(s).

1. Have you completed a map(s) that includes all components of BMP #2? ☒ Yes ☐ No

If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

If No, date by which permittee expects map(s) to be completed:

2. Date of last update or revision to map(s): April 2022

3. Total No. of Outfalls in MS4: 26 Total No. of Outfalls Mapped: 26

4. Total No. of Observation Points: 0 Total No. of Observation Points Mapped: 0
5. During the reporting period, have you identified any existing outfalls that have not been previously reported to DEP in an NOI, application or annual report, or are any new MS4 outfalls proposed for the next reporting period?
- ☐ Yes ☒ No If Yes, select: ☐ Existing Outfall(s) Identified ☐ New Outfall(s) Proposed

BMP #3: In conjunction with the map(s) created under BMP #2 (either on the same map or on a different map), the permittee shall develop and maintain map(s) that show the entire storm sewer collection system within the permittee's jurisdiction that are owned or operated by the permittee (including roads, inlets, piping, swales, catch basins, channels, and any other components of the storm sewer collection system), including privately-owned components of the collection system where conveyances or BMPs on private property receive stormwater flows from upstream publicly-owned components.

1. Have you completed a map(s) that includes all components of BMP #3? ☒ Yes ☐ No

If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

If No, date by which permittee expects map(s) to be completed:

2. If Yes to #1, is the map(s) on the same map(s) as for outfalls and receiving waters? ☒ Yes ☐ No

3. Date of last update or revision to map(s): April 2022

BMP #4: Conduct dry weather screenings of MS4 outfalls to evaluate the presence of illicit discharges. If any illicit discharges are present, the permittee shall identify the source(s) and take appropriate actions to remove or correct any illicit discharges. The permittee shall also respond to reports received from the public or other agencies of suspected or confirmed illicit discharges associated with the storm sewer system, as well as take enforcement action as necessary. The permittee shall immediately report to DEP illicit discharges that would endanger users downstream from the discharge, or would otherwise result in pollution or create a danger of pollution or would damage property.

For new permittees, all identified outfalls (and if applicable observation points) must be screened during dry weather at least twice within the 5-year period following permit coverage. For existing permittees, all identified outfalls (and if applicable observation points) must be screen during dry weather at least once within the 5-year period following permit coverage and, for areas where past problems have been reported or known sources of dry weather flows occur on a continual basis, outfalls must be screened annually during each year of permit coverage.

1. How many unique outfalls (and if applicable observation points) were screened during the reporting period? 4

2. Indicate the percentage of all outfalls screened in the past five years. 100%

3. Indicate the percent of outfalls screened during the reporting period that revealed dry weather flows: 0%

4. Did any dry weather flows reveal color, turbidity, sheen, odor, floating or submerged solids? ☐ Yes ☒ No

5. If Yes for #4, attach all sample results to this report with a map identifying the sample location. Explain the corrective action(s) taken in the attachment.

6. Do you use the MS4 Outfall Field Screening Report form (3800-FM-BCW0521) provided in the permit?

☒ Yes ☐ No

If No, attach a copy of your screening report form.

BMP #5: Enact a Stormwater Management Ordinance or SOP to implement and enforce a stormwater management program that includes prohibition of non-stormwater discharges to the regulated small MS4.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that prohibits non-stormwater discharges? ☒ Yes ☐ No

If Yes, indicate the date of the ordinance or SOP: June 14, 2022

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j) with respect to authorized non-stormwater discharges? ☒ Yes ☐ No

If Yes to #2 and the ordinance or SOP has not been submitted to DEP previously, attach the ordinance or SOP.

3. Were there any violations of the ordinance or SOP during the reporting period? ☐ Yes ☒ No

If Yes to #3, complete the table below (attach additional sheets as necessary).

Violation Date	Nature of Violation	Responsible Party	Enforcement Taken

4. Did you approve any waiver or variance during the reporting period that allowed an exception to non-stormwater discharge provisions of an ordinance or SOP? ☐ Yes ☒ No

If Yes to #4, identify the entity that received the waiver or variance and the type of non-stormwater discharge approved.

BMP #6: Provide educational outreach to public employees, business owners and employees, property owners, the general public and elected officials (i.e., target audiences) about the program to detect and eliminate illicit discharges.

1. Was IDD&E-related information distributed to public employees, businesses, and the general public during the reporting period? ☒ Yes ☐ No

If Yes, what was distributed? Through its newsletter and MS4 presentations at public Council meetings, the Borough encouraged employees, businesses, and the general public to report stormwater concerns to the Borough.

2. Is there a well-publicized method for employees, businesses and the public to report stormwater pollution incidents?
☒ Yes ☐ No

3. Do you maintain documentation of all responses, action taken, and the time required to take action? ☒ Yes ☐ No

MCM #3 Comments:

The Borough received PRP/TMDL Plan review comments from the PADEP via a letter dated June 3, 2021. Since that time, the Borough has addressed those comments and publically advertised the Plan to solicit public participation. During the updates to the Planning Area and Land Use Maps, outfalls were reviewed. One previously identified outfall was removed during this reporting period since it could not be found and the four outfalls that were first identified in the last reporting period were screened.

MCM #4 – CONSTRUCTION SITE STORMWATER RUNOFF CONTROL

Are you relying on PA's statewide program for stormwater associated with construction activities to satisfy this MCM?

☒ Yes ☐ No

(If Yes, respond to questions for BMP Nos. 1, 2 and 3 only in this section. If No, respond to questions for all BMPs in this section)

BMP #1: The permittee may not issue a building or other permit or final approval to those proposing or conducting earth disturbance activities requiring an NPDES permit unless the party proposing the earth disturbance has valid NPDES Permit coverage (i.e., not expired) under 25 Pa. Code Chapter 102.

During the reporting period, did you comply with 25 Pa. Code § 102.43 (relating to withholding building or other permits or approvals until DEP or a county conservation district (CCD) has approved NPDES permit coverage)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #2: A municipality or county which issues building or other permits shall notify DEP or the applicable CCD within 5 days of the receipt of an application for a permit involving an earth disturbance activity consisting of one acre or more, in accordance with 25 Pa. Code § 102.42.

During the reporting period, did you comply with 25 Pa. Code § 102.42 (relating to notifying DEP/CCD within 5 days of receiving an application involving an earth disturbance activity of one acre or more)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #3: Enact, implement and enforce an ordinance or SOP to require the implementation and maintenance of E&S control BMPs, including sanctions for non-compliance, as applicable.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of E&S control BMPs? ☒ Yes ☐ No

If Yes, indicate the date of the ordinance or SOP: June 14, 2022

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No

3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #4: Review Erosion and Sediment (E&S) control plans to ensure that such plans adequately consider water quality impacts and meet regulatory requirements.

Specify the number of E&S Plans you reviewed during the reporting period:

BMP #5: Conduct inspections regarding installation and maintenance of E&S control measures during earth disturbance activities. Maintain records of site inspections, including dates and inspection results, in accordance with the record retention requirements in this permit.

Specify the number of E&S inspections you completed during the reporting period:

BMP #6: Conduct enforcement when installation and maintenance of E&S control measures during earth disturbance activities does not comply with permit and/or regulatory requirements.

Specify the number of enforcement actions you took during the reporting period for improper E&S:

BMP #7: Develop and implement requirements for construction site operators to control waste at construction sites that may cause adverse impacts to water quality. The permittee shall provide education on these requirements to construction site operators.

Specify the method(s) by which you are educating construction site operators on controlling waste at construction sites:

BMP #8: Develop and implement procedures for the receipt and consideration of public inquiries, concerns, and information submitted by the public to the permittee regarding local construction activities.

1. A tracking system has been established for receipt of public inquiries and complaints. ☐ Yes ☐ No

2. Specify the number of inquiries and complaints received during the reporting period:

MCM #4 Comments:

MCM #5 – POST-CONSTRUCTION STORM WATER MANAGEMENT IN NEW DEVELOPMENT AND REDEVELOPMENT

BMP #1: Enact, implement and enforce an ordinance or SOP to require post-construction stormwater management from new development and redevelopment projects, including sanctions for non-compliance.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of post-construction stormwater management (PCSM) BMPs? ☒ Yes ☐ No
If Yes, indicate the date of the ordinance or SOP: June 14, 2022
2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No
3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #2: Develop and implement measures to encourage and expand the use of Low Impact Development (LID) in new development and redevelopment. Measures should also be included to encourage retrofitting LID into existing development. Enact ordinances consistent with LID practices and repeal sections of ordinances that conflict with LID practices.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that encourages and expands the use of LID in new development and redevelopment? ☒ Yes ☐ No
If Yes, indicate the date of the ordinance or SOP: June 14, 2022
2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No
3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #3: Ensure adequate O&M of all post-construction stormwater management BMPs that have been installed at development or redevelopment projects that disturb greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale.

1. Do you have an inventory of all PCSM BMPs that were installed to meet requirements in NPDES Permits for Stormwater Discharges Associated with Construction Activities approved since March 10, 2003? ☒ Yes ☐ No
If Yes to #1, complete Table 1 on the next page.
2. Has proper O&M occurred during the reporting period for all PCSM BMPs? ☒ Yes ☐ No
3. If No to #2, explain what action(s) the permittee has taken or plans to take to ensure proper O&M.

If you are relying on PA's statewide program for stormwater associated with construction activities, you may skip to MCM #6, otherwise complete all questions for BMPs #4 - #6 in this section.

BMP #4: Require the implementation of a combination of structural and/or non-structural BMPs that are appropriate to the local community, that minimize water quality impacts, and that are designed to maintain pre-development runoff conditions.

1. Specify the number of PCSM Plans reviewed during the reporting period for projects disturbing greater than or equal to one acre (including projects less than one acre that are part of a larger common plan of development or sale):
2. Has a tracking system been established and maintained to record qualifying projects and their associated BMPs?
☐ Yes ☐ No

PCSM BMP INVENTORY

Table 1. To complete the information needed for MCM #5, BMP #3, list all existing structural BMPs that discharge stormwater to the permittee's MS4 that were installed to satisfy PCSM requirements for earth disturbance activities under Chapter 102, and provide the requested information (see instructions).

BMP No.	BMP Name	DA (ac)	Entity Responsible for O&M	Latitude	Longitude	Date Installed	O&M Requirements	NPDES Permit No.
1				0 1 33	0 1 33			
2				0 1 33	0 1 33			
3				0 1 33	0 1 33			
4				0 1 33	0 1 33			
5				0 1 33	0 1 33			
6				0 1 33	0 1 33			
7				0 1 33	0 1 33			
8				0 1 33	0 1 33			
9				0 1 33	0 1 33			
10				0 1 33	0 1 33			
11				0 1 33	0 1 33			
12				0 1 33	0 1 33			
13				0 1 33	0 1 33			
14				0 1 33	0 1 33			
15				0 1 33	0 1 33			
16				0 1 33	0 1 33			

BMP #5: Ensure that controls are installed that shall prevent or minimize water quality impacts. The permittee shall inspect all qualifying development or redevelopment projects during the construction phase to ensure proper installation of the approved structural PCSM BMPs. A tracking system (e.g., database, spreadsheet, or written list) shall be implemented to track the inspections conducted and to track the results of the inspections (e.g., BMPs were, or were not, installed properly).

1. During the reporting period have you inspected all qualifying development and redevelopment projects during the construction phase to ensure proper installation of approved structural BMPs?
☐ Yes ☐ No ☐ Not Applicable (no qualifying projects during reporting period)
2. Has a tracking system been established and maintained to record results of inspections?
☐ Yes ☐ No

BMP #6: Develop a written procedure that describes how the permittee shall address all required components of this MCM.

Have you developed a written plan that addresses: 1) minimum requirements for use of structural and/or non-structural BMPs in plans for development and redevelopment; 2) criteria for selecting and standards for sizing stormwater BMPs; and 3) implementation of an inspection program to ensure that BMPs are properly installed? ☒ Yes ☐ No

MCM #5 Comments:

MCM #6 – POLLUTION PREVENTION / GOOD HOUSEKEEPING

BMP #1: Identify and document all operations that are owned or operated by the permittee and have the potential for generating pollution in stormwater runoff to the MS4. This includes activities conducted by contractors for the permittee.

1. Have you identified all facilities and activities owned and operated by the permittee that have the potential to generate stormwater runoff into the MS4? ☒ Yes ☐ No
2. When was the inventory last reviewed? September 2022
3. When was it last updated? September 2019

BMP #2: Develop, implement and maintain a written O&M program for all operations that could contribute to the discharge of pollutants from the MS4, as identified under BMP #1. This program shall address stormwater collection or conveyance systems within the regulated MS4.

1. Have you developed a written O&M program for the operations identified in BMP #1? ☒ Yes ☐ No
2. Date of last review or update to written O&M program: June 2018

BMP #3: Develop and implement an employee training program that addresses appropriate topics to further the goal of preventing or reducing the discharge of pollutants from operations to the regulated small MS4. All relevant employees and contractors shall receive training.

1. Have you developed an employee training program? ☒ Yes ☐ No
2. Date of last review or update to training program: September 2022 Date of latest training: September 2022

3. Training topics covered:

A copy of the training program document was distributed to Borough employees.

4. Name(s) of training presenter(s):

Gilmore & Associates, Inc.

5. Names of training attendees:

Borough employees

MCM #6 Comments:

The Borough documented that it cleaned inlets of leaves and trash in September 2022.

POLLUTANT CONTROL MEASURES (PCMs)

Indicate the status of implementing PCMs in Appendices A, B and/or C by completing the table below. Skip this section if PCMs are not applicable.

Task	Date Completed	Attached	Anticipated Completion Date
Storm Sewershed Map(s)	April 2022	<input type="checkbox"/>	
Source Inventory	September 2022	<input type="checkbox"/>	
Investigation of Suspected Sources	September 2022	<input type="checkbox"/>	
Ordinance/SOP for Controlling Animal Wastes	September 2012	<input type="checkbox"/>	

PCM Comments:

Copies of the above referenced documents were submitted with the July 1, 2021 - June 30, 2022 Annual MS4 Status Report.

POLLUTANT REDUCTION PLANS (PRPs) AND TMDL PLANS

1. Complete this section if the development and submission of a PRP and/or TMDL Plan was required as an attachment to the latest NOI or application or was required by the permit, regardless of whether DEP has approved the plan(s).

Type of Plan	Submission Date	DEP Approval Date	Surface Waters Addressed by Plan
<input type="checkbox"/> Chesapeake Bay PRP (Appendix D)			Chesapeake Bay
<input checked="" type="checkbox"/> Impaired Waters PRP (Appendix E)	pending incorporation of public participation information		Neshaminy Creek
<input checked="" type="checkbox"/> TMDL Plan (Appendix F)	pending incorporation of public participation information		Neshaminy Creek

<input type="checkbox"/> Combined Chesapeake Bay / Impaired Waters PRP			Chesapeake Bay,
<input type="checkbox"/> Combined PRP / TMDL Plan			
<input type="checkbox"/> Joint Plan <i>(if checked, list the name of the MS4 group or names of all entities participating in the joint plan below)</i> Joint Plan Participants:			
2. Identify the pollutants of concern and pollutant load reduction requirements under the permit (see instructions).			
Type of Plan	TSS Load Reduction (lbs/yr)	TP Load Reduction (lbs/yr)	TN Load Reduction (lbs/yr)
<input type="checkbox"/> Chesapeake Bay PRP (Appendix D)			
<input checked="" type="checkbox"/> Impaired Waters PRP (Appendix E)			
<input checked="" type="checkbox"/> TMDL Plan (Appendix F)			
<input type="checkbox"/> Combined Chesapeake Bay / Impaired Waters PRP			
<input type="checkbox"/> Combined PRP / TMDL Plan			
3. Date Final Report Demonstrating Achievement of Pollutant Load Reductions Due: date pending PRP/TMDL Plan approval 4. Have any modifications to the plan(s) occurred since DEP approval? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes to #4, was the updated plan(s) submitted to DEP? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes to #4, did you comply with the public participation requirements of the applicable appendix? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes to #4, describe the plan modifications.			
5. Summary of progress achieved during reporting period. The Borough received PRP/TMDL Plan review comments from the PADEP via a letter dated June 3, 2021. Since that time, the Borough has addressed those comments and publically advertising the Plan; this approach was encouraged and agreed to by the PADEP via emails. No new BMPs have been installed since the Plan has not received DEP approval.			
6. Anticipated activities for next reporting period. Incorporate the public participation information into the PRP/TMDL Plan and formally submit the Plan for DEP approval. Receive formal PRP & TMDL Plan approval from the DEP and begin implementing the Plan upon approval from the DEP.			
PRP/TMDL Plan Comments:			

--

NEW BMPs FOR PRP/TMDL PLAN IMPLEMENTATION

Table 2. List all new structural BMPs installed and ongoing non-structural BMPs implemented during the reporting period that are being used toward achieving load reductions in the permittee's PRP and/or TMDL Plan (see instructions).

BMP No.	BMP Name	DA (ac)	% Imp.	BMP Extent	Units	Latitude	Longitude	Date Installed or Implemented	Planning Area?	Ch. 102?	Annual Sediment Load Reduction (lbs/yr)
						O 1 11	O 1 11		<input type="checkbox"/>	<input type="checkbox"/>	
						O 1 11	O 1 11		<input type="checkbox"/>	<input type="checkbox"/>	
						O 1 11	O 1 11		<input type="checkbox"/>	<input type="checkbox"/>	
						O 1 11	O 1 11		<input type="checkbox"/>	<input type="checkbox"/>	
						O 1 11	O 1 11		<input type="checkbox"/>	<input type="checkbox"/>	

BMP INVENTORY FOR PRP/TMDL PLAN IMPLEMENTATION

Table 3. List all existing structural BMPs that have been installed in prior reporting periods and are eligible to use toward achieving load reductions in the permittee's PRP and/or TMDL Plan (see instructions).

BMP No.	BMP Name	DA (ac)	% Imp.	BMP Extent	Units	Latitude	Longitude	Date Installed	Annual Sediment Load Reduction (lbs/yr)	Date of Latest Inspection	Satisfactory?
						O 1 11	O 1 11				<input type="checkbox"/>

CERTIFICATION

For PAG-13 Permittees: I have read the latest PAG-13 General Permit issued by DEP and agree and certify that (1) the permittee continues to be eligible for coverage under the PAG-13 General Permit and (2) the permittee will continue to comply with the conditions of that permit, including any modifications thereto. I understand that if I do not agree to the terms and conditions of the PAG-13 General Permit, I will apply for an individual permit within 90 days of publication of the General Permit. I also acknowledge that any facility construction needed to comply with the General Permit requirements shall be designed, built, operated, and maintained in accordance with operative laws and regulations.

For All Permittees: I certify under penalty of law that this report was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

Spring 2022

SPRING CLEAN UP

Mike Italia, Barry Isett

The great Spring clean-up is in full swing and as a reminder that any debris should be discarded either in your normal trash pick-up or at a yard waste recycling facility. Residents should not be open burning brush or other debris due to hazards that are created from strong winds and low humidity levels during this time of year.

Fire Pit Safety

Fire pits should be kept at least 25 feet away from combustibles and buildings, please remember to cool the hot coals prior to going to bed and any ash should be stored in a metal can with a lid.

Swimming Pool Discharge Guidelines

Please review the following pool guidelines before opening your swimming pools for the year:

New Britain Borough does not require a permit for discharging water from a swimming pool, but the following guidelines shall apply:

- Discharge of water to a storm sewer is not permitted. In no event shall pool waters be directly discharged to waters of the Commonwealth.
- Water should be pumped over a grassy area to allow absorption, filtration, and aeration of water. The discharge should be at a rate which prevents erosion and optimizes infiltration.
- Standing water or accumulated rain and/or pool water from the previous season should be pumped from the top so as not to disturb settled solids.
- Solids on the pool bottom should not be discharged. Following pump down of water, solids should be cleaned out manually.
- Cleaning wastewaters containing muriatic acid or chlorine that is used in cleaning pool surfaces need to be treated prior to discharge.
- Filter backwash water during normal pool operation must be at a sufficiently low volume that all water infiltrates to the ground.

Questions concerning pool guidelines should be directed to
Pennsylvania Department of Environmental Protection, Southeast Regional Office,
Bureau of Water Management, Telephone: (484) 250-5970.

ENGINEERING & CONSULTING SERVICES

STORM WATER

Karen MacNair, Gilmore & Associates

As many residents and business owners of the Borough of New Britain are aware, the Borough is responsible for monitoring the storm sewer system for pollutants and to remove or direct to have removed any identified sources of pollution. The program is known as the National Pollution Discharge Elimination System Municipal Separate Storm Sewer System, NPDES MS4 for short. It is important to understand that stormwater does not get treated before it reaches Pine Run, Cooks Run, and the Neshaminy Creek so any particle, large or small, that can be carried by water and reaches a roadway, storm sewer inlet, or swale will end up untreated in these streams. Common pollutants in stormwater come from pet waste in yards, over fertilizing of lawns, washing vehicles in driveways or streets, and improper disposal of cleansers, oil, and paint.

Aside from properly disposing of pet waste, cleaners, oils, and paints, using recommended fertilization levels for lawns, and washing your car at a commercial car wash, another way to help the stormwater environment is by adding trees or other vegetation to your property. Trees and other plants help retain more water, enhance water percolation into the soil, and guard against erosion. Trees retain 2-7 percent or more of the water produced by a short downpour, either by allowing it to evaporate or soaking it up, instead of the same water running off into the storm sewer system. Roots of established plants also bind the soil, reducing erosion. If adding plantings to your property is of interest to you, please consider selecting from the approximately 2,100 plants which are native to Pennsylvania and Call 811 before you dig: http://elibrary.dcm.pa.gov/GetDocument?docId=1742582&DocName=sf-Native_Plants_Landscaping-brochure.pdf

The Borough website is a valuable resource for stormwater related information at <https://www.newbritainboro.com/information/storm-water-awareness/>. This webpage contains useful information regarding the Borough's NPDES MS4 program requirements. Links to EPA and PADEP (the Federal and State agencies responsible for this program) are provided as well as other educational and informational resources. All residents and businesses within the Borough are encouraged to review this information and to help in Borough efforts to keep our water clean.

Help keep our water clean! To report a non-stormwater discharge to the stormwater system, storm drain, or to a stream, please call the Borough's offices at 215-348-4556.

Community News

Bird Town Committee

NEW BRITAIN BOROUGH IS CERTIFIED AS A COMMUNITY WILDLIFE HABITAT!

Over the past two years, our Borough's Bird Town Committee has been working diligently to have New Britain Borough certified as a "Community Wildlife Habitat" by the National Wildlife Federation (NWF). On February 25, 2022, we received the good news that we have been officially certified, having met all the NWF's requirements!

The Bird Town Committee will be holding a formal community celebration of this achievement, with representatives from the National Wildlife Federation on hand, at our annual native plant pop-up park at the Town Center. The planned date for this event is Saturday, September 10, 2022. We certainly hope to see many of you there!

For more than forty years, the National Wildlife Federation has engaged homeowners, businesses, schools, and communities in creating and certifying wildlife-friendly landscapes on their properties.

The National Wildlife Federation's Community Wildlife Habitat program empowers towns and cities to take action for wildlife in their own communities. The program provides community leaders with a program framework to restore wildlife habitat and educate and engage community members while working to attain the National Wildlife Federation's certification as a wildlife-friendly community.

Communities earn community-wide certification by certifying individual properties in their community as Certified Wildlife Habitats and by doing education and outreach in their community. Education and outreach points are earned by engaging community members in habitat restoration projects and by educating residents about gardening and landscaping with wildlife in mind.

Certified communities promote the use of native trees and plants, work to reduce or eliminate the use of pesticides and chemicals and integrate wildlife-friendly practices into stewardship plans and master park plans.

Community News

Bird Town Committee**Spring 2022**

NEW BRITAIN BOROUGH IS CERTIFIED AS A COMMUNITY WILDLIFE HABITAT!

In the words of the National Wildlife Federation, New Britain Borough is being recognized for, "exceptional action to preserve, enhance, restore and connect wildlife habitat while also communicating the importance of habitat stewardship to the public ... and contributing to establishing a network of thriving communities where people, wildlife and plants can all flourish."

There are only five other National Wildlife Federation certified communities in Pennsylvania and Haycock Township is the only other certified community in the southeastern Pennsylvania.

As part of the certification process, over seventy private Borough residences, as well as all the Borough's public spaces, have been individually certified as wildlife habitat. A certified wildlife habitat is free of pesticides and provides food, water, cover, and nesting sites. A vital component is the use of native plants, which are the best food sources for native insects and birds.

The registration of these properties was spearheaded by the tireless efforts of Bird Town Committee members Dave Horne and Jane McGroarty. The creation of suitable wildlife habitats in our public spaces has been carried out by the many volunteers that serve on the Borough committees stewarding these areas.

If you haven't registered your own property yet, it is still possible to add your property to the ever-growing list. To learn about certification requirements, register your property, read more about the Community Wildlife Habitat program, or see New Britain Borough's profile on the National Wildlife Federation's website, go to <https://www.nwf.org/communitywildlifehabitat>.

The Bird Town Committee would like to thank all the Borough residents who helped us achieve this certification by making the commitment to landscape their properties with wildlife in mind and by registering their properties as wildlife habitat. We'd also like to thank all the members of the Nature Preserve Committee, the Parks and Recreation Committee, and the Shade Tree Commission whose habitat restoration work in recent years made this certification possible.

Manager's Highlights

Fall / Holiday 2022

This is an honor to be writing this Manager's letter. As your new Borough Manager, I want you to know I am available for any phone calls, emails, a "just stopping in to say hi" or to ask any question about the borough. I look forward to this opportunity you have given me.

Many of you have been asking about the new gas station on Butler Avenue. I can tell you that New Britain Borough's building and code inspectors have already issued the TCO. (Temporary Certificate of Occupancy) This certificate allows them to open and operate. Now it's all up to them to finish setting up. We are all hoping they will open soon.

"The New Britain Borough West Butler Ave Sidewalk Project - Phase One" which started in the beginning of June, ran Westward from Sandy Ridge Road, along Butler Ave and eventually ended at Keeley Ave. This project is now complete and walkable. "Phase Two" will come soon as soon as we apply for the 2nd grant. "Phase Two" will connect from the end of "Phase One" at Sand Ridge Road and go all the way to Delaware Valley University. Wow, this will allow you to walk from the University to Manhattan Bagels in Chalfont and anywhere in between. We hope you will enjoy this walking adventure!

We are coming into the fall. As we get back to mowing grass and soon raking leaves, I will ask that you do not blow or rake your grass and leaves into the streets and/or into the stormwater drains. Yes, people have been known to do that, and we all know that this will cause street flooding and add contaminants in our streams and waterways. If you see anyone doing this illegal act, please contact me and I will be glad to have a chat with that individual.

Lastly, we are getting closer to snowplow season. Some of us look forward to this white blanket of beauty while others fear the removal of the white stuff. Please keep an eye on your senior neighbors, check on them frequently and lend a helping-hand when you can. Shoveling and venturing outside (walking or running errands) in a winter wonderland is very dangerous for them. While removing this white fluff, please do not place in the road. Throwing snow in the road is illegal and causes icing hazards. Please wait till the snowplow has cleared your street, curb to curb or edge to edge before clearing your driveway.

I also recommend you check your mailboxes for two things:

- 1) please make sure the mailbox post is sturdy. That it's not rotted at the base, because it's easier to replace now than in the frozen ground.
- 2) check that the face of the mailbox is 6" behind the face of the curb or edge of the asphalt. (see below) This helps during snowplowing season.

Many people believe, the snowplow drivers aim for your mailboxes... they do not! If your mailbox is knocked over, it's because of one or both of these two points are the issue.

If you have any questions about this letter, please feel free to contact me at the borough office. Have a safe and great weekend with family and friends.

Sincerely,

John Wolff

STORM WATER

Karen MacNair, Gilmore & Associates

Stormwater management is very important for the sustainability of the Borough. The remnants from Hurricane Ida, which impacted our area about 1 year ago, showed our area the extreme power of water. The Borough's stormwater design standards have evolved and improved over the years in efforts to minimize the impacts from stormwater runoff. Depending on the size of development, the requirements vary.

For the smallest of projects, up to 1000 square feet (SF), they are exempt from the requirements of the stormwater management ordinance. Below is a simple example of a project that would be exempt:

A homeowner wants to add a garage and a driveway to meet it. The garage is 22 feet by 20 feet or 440 SF of additional impervious. The driveway is 40 feet by 10 feet or 400 SF of additional impervious. Combined the increase in impervious coverage is 840 SF. Therefore, being less than 1000 SF, this project would be exempt from the stormwater management ordinance requirements.

For projects between 1001 and 5000 SF of impervious, such as a large addition or double-wide garage and new driveway, this type of development follows the Small Project Stormwater Management Site Plan requirements and is exempt from peak rate requirements. The most common mitigations for a project of this size are construction of a small rain garden or underground stone seepage bed.

For projects with over 5,000 square feet of new impervious surfaces, the Borough requires the applicant determine the total amount (volume) of runoff and how fast (rate) with which the stormwater runs through and out of the site in its current condition. Next, the applicant must do this same analysis on the proposed conditions. The existing and proposed data are compared. The total volume of water permitted to leave the site ultimately must be equal to or less than what currently leaves the site. The rate of which the water leaves the site must also be equal to or less than existing. These requirements are generally addressed with large above ground or below ground basins and associated conveyance pipes, inlets, and manholes.

Everything you do has an impact on others downstream from you. Likewise, what others do upstream from you has an impact on you. It takes everyone to properly manage the increased stormwater runoff that would otherwise result from development.

You can help keep our water clean! To report a non-stormwater discharge to the stormwater system, storm drain, or to a stream, please call the Borough's offices at 215-348-4586.

As always, the Borough Code of Ordinances can be found online by visiting <https://ecode360.com/NE3059>

Taking Care of Your Lawn – and your Watershed

We each have our own lawn care style --- some are protective (mow, mow, mow!), while others take a more laid-back approach. No matter your style, there are ways to reduce the environmental impact of your lawn care practices. Overwatering is not only bad for your lawn, it's a strain on water supplies and often ends up as wasted, excess runoff to the Borough's storm sewer system and streams.

Watering Your Lawn

Light, frequent watering supports healthy grass and resists disease and pests. The best schedule for watering is 15 - 20 minutes per day between noon and 4:00 p.m. when the grass is under the most stress. If daily afternoon watering is not practical for you, try an every-other-day schedule of 30 - 40 minutes. For best results, combine light, frequent watering with grass mulching and slow-release fertilizer applications.

Grass Mulching Tips

Mow High!

Set the mower blade at the highest setting, leaving grass blades 3 inches tall. If you cut your grass at 2 inches or less, the grass will draw energy from its root reserves to grow, instead of drawing energy from the sun. Tall grass encourages deep roots, which require less water, and also shades out crabgrass and low-growing weeds. Keeping grass tall during the summer also helps the plants tolerate the heat and dry weather, rather than requiring more water.

Let your clippings Lay

Let the grass blades fall back onto the lawn. Short clippings quickly decompose, adding valuable nutrients to the soil. Grass clippings can return 50-100% of the nitrogen your lawn needs and are free fertilizer. If you are concerned about the appearance of lawn clippings, you can use a mulching mower, which will chop them into fine bits. Another bonus? Grass clippings are 85 percent water and can also reduce your watering needs.

A common myth is that grass clippings cause thatch, a layer of living and dead roots and stems growing between the green layer and the soil. Troublesome thatch is actually caused by improper use of lawn chemicals, compacted soils, and excessive watering.

Fertilizing Your Lawn

In the case of fertilizer, more is not better! Over-applied fertilizer will wash off your lawn when it rains, drain into the Borough's storm sewer system and ultimately end up in streams as a pollutant. A soil test will tell you what nutrients are already contained in your lawn so that you are not over-applying fertilizers. Soil testing is available through the local county Penn State Extension office: <https://extension.psu.edu/soil-testing>.

For more information about the Borough's Storm Water Management plan, check out: <https://www.newbritainboro.com/information/storm-water-awareness/>

Help keep our water clean! To report a non-stormwater discharge to the stormwater system, storm drain, or to a stream, please call the Borough's offices at 215-348-4586.

Karen McNair, *Borough Engineer*
Gilmore & Associates

New Britain Borough Shade Tree Commission Celebrates Arbor Day ...

Each Year the New Britain Shade Tree Commission celebrates Arbor Day with a Tree Planting Ceremony in our borough. Please join us this year for this special occasion.

DATE: Saturday April 29, 2023

TIME: 10:00 A.M.

PLACE: Orchard Park

We will be planting a Serviceberry Tree. These multi season trees have white flowers in spring, bright red fruits that birds love in June and an array of brilliant red and gold leaves in fall. Our aim each year is to add beneficial native trees to our borough properties. This is a good opportunity for you to learn more about our commission and the native trees we are adding to the borough properties.

Since we are planting trees not just for our enjoyment but for the younger generation whose job it will be to care for these trees in years to come, we have invited a scout troop to join us in this endeavor.

Written by Marge Eberz

Secretary New Britain Borough Shade Tree Commission, mte54@verizon.net

Exciting Developments for the Bird Town Program!

New Britain Borough has been a Bird Town since 2013. The Bird Town program was established by Audubon PA in 2010 to partner with local municipalities in the creation of a “healthier and sustainable environment for birds, wildlife, and people.” While the Bird Town program remained vibrant in our own community, it suffered from neglect at the state level due to staffing and funding issues at Audubon PA.

Today, however, the Bird Town initiative is stronger than ever and expanding throughout the state. Now administered by a new entity, Bird Town Pennsylvania, this revitalized grassroots program provides tools for municipalities to engage, educate and empower their residents, schools, and businesses to make more positive social, economic, and ecologically friendly decisions.

Promoting a culture of conservation, where everyone is a potential steward of nature in their own backyard and community, is a major goal of Bird Town PA. The restoration of natural systems and native plant communities for birds, butterflies, and other wildlife, on both private and public lands, has many positive impacts on communities, including creating a healthier environment, reducing stormwater runoff, greenhouse gases and maintenance time, increasing property values, and building community pride.

To learn much more about the Bird Town program, please visit Bird Town Pennsylvania's new website at <https://birdtownpa.org/>. You can also join the Bird Town PA Facebook group, “Bird Town Forum,” at <https://www.facebook.com/groups/birdtownforum>, or sign up to receive Bird Town PA's eNewsletter, “Bird Beat,” at <https://birdtownpa.org/bird-beat-newsletters/> to keep up with Bird Town events or learn more about how to create bird-friendly habitat in your own backyard.

Tom Price, *Council Vice-President & Bird Town Committee Chair*
pricet@newbritainboro.com

Changes Coming to the Borough's Volunteer Committees

Our Borough has always benefited from the strong base of residents who volunteer to serve on our various standing committees. These committees do important and necessary work that would otherwise need to be done by outside contractors or Borough staff. This work saves the Borough's taxpayers thousands of dollars every year and frees up our small Borough staff for other tasks and responsibilities.

In recent months, Borough Council has approved the following changes to our committees that should augment their efficiency and increase their value to the Borough:

- Give Council liaisons a vote on committees (but not on boards or commissions) unless prohibited by PA Borough Code or other Pennsylvania law.
- Eliminate caps on the number of committee members, unless capped by PA Borough Code or another Pennsylvania law.
- Modify the responsibilities of the Community & Business Committee to focus on supporting and attracting local businesses.
- Create a new Events/Activities Committee to organize Borough events and to assist the Civic Association with its events.
- Eliminate the Public Safety Committee, the Roads Committee, and the Facilities Committee and assign their responsibilities to a new committee responsible for advising Council on issues related to public works, public safety, traffic, roads, parking, public services, and the maintenance of Borough facilities.
- Replace the Bird Town Committee with an Environmental Advisory Council. This EAC would be responsible for the Bird Town program in the Borough but would also serve as an advisory committee to Council on other environmental issues.
- Create a new Communications Committee to assist Borough staff with the Borough's newsletter, website, and social media.

Once these changes are fully implemented, additional volunteers will be needed to serve on these new and revamped committees. If interested, please contact the Borough Office, and let us know at nnboro@newbritainboro.com

Tom Price, *Council Vice-President*

Agenda for the Regular Meeting of New Britain Borough Council
Wednesday November 9, 2022 at 7:30PM

- 1) Call to Order
- 2) Consideration of Consent Agenda Items
 - a) October 12, 2022 Minutes
 - b) Unpaid bills for October 2022
- 3) Resident Remarks
- 4) Review of Written Staff Reports and Elected Official Reports
 - a) Manager's Report
 - b) Finance Report
 - c) Police Department Report
 - d) Engineer's Report
 - **MS4 (Storm Water) Presentation**
- 5) Committee Activity Review, Questions, and Announcements
- 6) Business Items
 - a) Consider adoption of ordinance pursuant to Act 57 of 2022 relating to real estate taxation
 - b) Approve the CBRPD 2023 Budget
 - c) Consider advertising 2023 New Britain Borough Budget
 - d) Discuss CBRPD Commission Membership/Representation
- 7) Resident Remarks
- 8) Adjournment

General Committee Meeting Schedule (see calendar on Borough website for details/changes)

Community & Business Committee 3 vacancies	Planning Commission 2 vacancies	Park & Recreation Committee	Thank you to ALL our Volunteers for making this a great Community.

Minutes for the Regular Meeting of Borough Council November 9, 2022

1. Call to Order/Pledge of Allegiance

Council Present: Mr. Peter LaMontagne, President
Ms. Lori Kesilman, Vice President
Mr. Steven Ascher, Member
Dr. Robyne Kelemen, Member
Ms. Loren Frasco, Member
Mr. Thomas Price, Member
Ms. Jennifer Salisbury, Member
Mr. James Donovan, Mayor

Staff Present: Mr. John Wolff, Borough Manager
Mr. Michael Peters, Esq., Borough Solicitor
Ms. Karen MacNair, Borough Engineer

The public meeting of the Borough Council of New Britain Borough, duly advertised, was held in person at Burkart Hall and called to order by President LaMontagne at 7:30 p.m.

2. Consideration of Consent Agenda
